REPORT ON DENGUE AWARENESS PROGRAM

Date-28/08/2023

Venue- Harijan Sahi at Kaphla Bazar, Cuttack

Dengue fever is a potentially deadly viral diseases that has become a major public health concern in many countries around the world. We the PG Department of Sociology S.B. Women's Autonomous College, Cuttack believe that the small step we have taken will go a long way in saving lives. We worked on a dengue awareness program to ensure cleanliness and avoid mosquito breeding.

A one-day dengue awareness program was organized by PG Department of sociology, at Harijan Sahi at Kaphla Bazar, Cuttack on dt- 28/08/2023. The program provides information about the preventive measures that individuals can take to reduce their risk of contracting the disease. These measures include proper sanitation pra ctices such as keeping the surrounding areas clean and free of stagnant water and the use of insect repellent to protect against mosquito bites. Individuals can also take steps to protect themselves at home by using mosquito nets and screens on windows and doors. Head of the Departme it Mrs Sucharita Mishra explained the symptoms of dengue fever like continuous vomiting, knee pain, stomach pain, headache and body pain. The program also disseminated a short play of awareness by the PG students of the Sociology. This program was a successful initiative th it helped to raise awareness about the deadly disease and its prevention. The community positive response to the camp shows that education is key to preventing the spread of dengue fever.
