Sub: -Letter of appreciation

Madam,

We are pleased to convey our appreciation for the community services rendered by the students of your esteemed institution in our locality. The activities have a marked impact on the life style of the residents. The women in our street were explained about the practice of good health and hygiene, institutional birth etc. The children in the *Anganwadi* were imparted with activity base learning. The students had spread awareness on several community diseases like Dengue, Cholera etc. The residents have started using mosquito nets and safe drinking water. The NSS volunteers had run Swachha Bharat Abhijan and cleaned the sewage in our area. They also sensitized the residents on use of power saving equipment.

All residents of the locality had appreciated the effort of your students.

With due Regards
