4.2.1. INTEGRATED LIBRARY MANAGEMENT SYSTEM/LIBRARY AUTOMATION SOFTWARE E-GRANTHALAYA 4.0 VERSION

- ILMS software is the utmost requirement in the way to build a Digital Library and accomplish all the needs of library users.
- Madhusudan Library is using E-Granthalaya Version 4.0, developed by NIC, Ministry of Electronics and Information Technology, Government of India. E-Granthalaya Version 4.0 run by PostgreSQL-an open-Source DBMS which is so useful in library operational work (Circulation, Cataloguing, Acquisition, Stock Verification, Barcoding of books, Gate pass for user etc.)
- EG-4.0 is working in cloud-based software which doesn't have installation issues as EG-3.0.
- Agglomeration of Government Library cataloguing data in cluster module in one platform and through Web OPAC any user can access library holdings at anywhere.
- E-accession register can be downloaded in excel/pdf format and also import the data in software by library staff is quite smooth. Authority Files/ Master tables for authors, publishers, Subjects etc import records from EXCEL/ MARC/ MARCXML format.
- Data rectification, overdue alert through SMS and E-mail is possible through this version.
- Automatic Cataloguing can be fetched through the ISBN Number of book. Barcode enabled ID card helps to fetch users' data for the circulation process (Checkout/ Check-in) in Madhusudan Library.
- It can be operated through Mobile even if failure of electricity and disconnection of LAN.
