

SHAILABALA WOMEN'S AUTONOMOUS COLLEGE
DEPARTMENT OF BOTANY
STUDY TOUR AND FIELD VISIT REPORT

Under Field trip and Lab visit, 40 students along with two teachers and one lab assistant visited Institute of Life Science and RPRC Bhubaneswar on 28th December 2019. At RPRC they visited the biotechnology lab and learnt the technique of tissue culture and also had hands on training on tissue culture techniques. They also visited the plantation area where they gained knowledge about the various plantation techniques and recorded the names and family of various plants with scientific names and family. They visited and interacted with the scientists and there fellow students in the lab in ILS and discussed about the internship programs to continue their research knowledge. Overall, it was a qualitative, informative and productive outcome.

FIELD TRIP 2019 (ILS-BBSR)
